

SIXTH YEAR.

MAYSVILLE, KY., MONDAY, SEPTEMBER 20, 1897.

ONE CENT.

LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "hotter" free any more than a merchant can lose over the counter the gift of dry goods or shoes. A newspaper is a valuable business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

Artistic Footwear!

If you will take a peep into our shoe window you will see that we made our promise good when we said our shoes will be as good as our clothing. We are now prepared to show you

The Best Line of MEN'S SHOES

In the State!

Every pair we sell you WE WARRANT to wear well. If they don't we give you another pair.

Next week the Mayville Fair, under its new management, will be in order. We will try to make it as pleasant for visitors as we know how. We always had a weakness for treating Fair visitors fair.

Come and see us; we will take care of your parcels, packages, etc.

Colonel Frank H. Clark sold to Dan Mitchell of Carlisle his fine roan horse for \$175.

In Cincinnati Mrs. Ruth H. Nicholson has secured William T. Nicholson for divorce. They were married in Aberdeen in 1890.

Miss Wolstein disappeared from Ironton a few days ago, and a vigorous search of the surrounding country has failed to locate her.

Mrs. L. V. Davis is now ready to receive her friends in her new store in Kackley's Building, next door to George Cox & Son.

Mr. Everett Brightman, who has been here the past winter and summer buying hogs, and who has in that time paid our farmers about \$70,000 in cash, leaves today for his home at Fall River, Mass.

The Republicans and Gold Democrats of Fayette county have "fused," and among their nominees is Jack Sheehan for Jailer. There's a man for everybody to vote for. Jack Sheehan is an old and clever man, and is in full command of the electorate. He was elected one time, and he will make a Jailer that everybody may be proud of. He was elected once, but the "ring" counted him out. That game will not work this time, however. Go on, Jack! The Ledger will come up and try your men when you assume charge of the county hotel.

KICKERS' CORNER

If any one at any time for any reason has any cause to "kick" in any way at anything of any kind, here's the place to say his say. The door is open—write right in and help yourself, free gratis and for nothing—but don't make your "kicks" too long—it's the short, quick picture that counts—and out.

NOTE: The name of the kicker must accompany the kick, or it'll be kicked into the waste-basket.

Oh, yes! THE LEDGER is always kicking—that is, it always kicks when there is good cause. Just look at the Fountain Place Explains and say if you don't think there ought to be a kick on that job.

Mr. John T. Parker, while handling a young horse at his livery stable, was caught between a shaft and a tree and painfully injured in the side and shoulder.

Lonie, aged 11, only daughter of Mr. and Mrs. Charles Dodson of Bernard, died yesterday morning at 11 o'clock of organic trouble. The funeral will occur tomorrow morning at 10 o'clock at the home of her parents, with services by the Rev. W. C. Watkins, Pastor of the Washington Christian Church, after which the remains will be brought to this city and interred in the Mayville Cemetery.

Masonic Notice. The annual election of officers will be held at the stated meeting of Mayville Chapter No. 9, R. A. M., this evening at 7:30 o'clock. A full attendance is desired. CLARENCE MATHEWS, H. P. R. P. Jenkins, Secretary.

FAIR NOTES. Some of the Attractions The Mayville Fair Offers to Patrons.

The celebrated Tuxedo Ladies' Military Band has been engaged to play during the Mayville Fair. Bands from surrounding towns have signified their intention of being present also. Old Mayville will certainly present a festive air during Fair week.

The Mayville Fair for 1897 is now in readiness for inspection and awards. There remains now nothing save the assembling of the people. As virtue is its own reward, so is faithful effort bound to have its correspondent in a satisfactory knowledge of duty well done and promises sacredly kept. What you see advertised as the attractive cards for amusement and pleasure are bona fide and real—no shams, no pretense, and as this is the final proclamation made to our readers we deem it advisable to make it as plain as English will interest so no one can possibly be fooled. The admission price is 25 cents; no extra charge whatever for the attractive features offered by the management. For four days, beginning Wednesday, September 23rd, each afternoon is filled with enough already contracted-for and surely coming features to crowd the time so as to finish before dark. The Wild West Shows, description of which has already been given, a high tower diver, 80 feet up, a balloon race each day, Tuxedo Ladies' Orchestra, and a Floral Hall which is a miniature exposition indeed. These are the regular attractions for each day, in addition to which special features for the day are added. Wednesday, the first, the clay pigeon gun club amateur contest will be held, in which any person so desiring may enter by complying with the American Gun Club rules, which govern the shoot. We have mentioned these amusements to show you what you are to get for the small admission fee. Of course, the grounds will be dotted with the usual fair amusements, such as throw ball battles, riding on the "Dutchman go-round," cane racks, soft drink sellers, peanuts, popcorn, music on all sides and all around and the dozens of other things which make fair going a pleasure. Reports from Mt. Olivet, Ewing, Dover, Minerva, Germantown, Ripley, Augusta, Manchester, Aberdeen, Portsmouth, Russellville, Flemingsburg, Vanceburg, Carlisle, Falmouth, Park, Crystalana, in fact, the whole vicinity lying within a circle of 100 miles diameter send most favorable promises of great crowds to attend our fair, which leads the management to predict that old Mayville will have the greatest crowds for four days this week of any Fair yet held or assembled in our city's walls.

Mr. Thomas T. Hancock died last evening just before 8 o'clock at the home of his brother, George S. Hancock, 319 East Second street, in the 73rd year of his age. He had been in failing health for some time, and his death was not unexpected. Mr. Hancock was born in Virginia, but came with his parents to Mayville when quite young, and most of his life was spent here.

He leaves a wife and five children—three daughters and two sons.

The funeral will occur tomorrow afternoon at 8 o'clock from the residence of his brother, George S. Hancock, 319 East Second street, under an escort from Mayville Commandery No. 10, K. T., the religious services being conducted by the Rev. J. S. Sims, Pastor of the M. E. Church, South.

Members of Mason Lodge No. 342, F. and A. M., are requested to meet at Mason Temple Tuesday afternoon at 2:15 o'clock for the purpose of attending the funeral of Brother Thomas T. Hancock. Members of sister Lodges invited.

W. G. HENNER, W. M. R. P. Jenkins, Secretary.

Members of Confidence Lodge No. 52, F. and A. M., are requested to meet with Mason Lodge No. 342, F. and A. M., for the purpose of attending the funeral of Brother Thomas T. Hancock.

SAM T. HICKMAN, W. M. George H. Martin, Secretary.

ATTENTION, SIR KNIGHTS. All members of Mayville Commandery No. 10, K. T., are requested to meet at their regular meeting at 2:15 p. m., Tuesday, September 21st, to attend the funeral of our brother T. T. Hancock.

Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

THE LEDGER gave an account Saturday of the filing of Dave Daley for candidacy to a dog. The fine and costs amounted to \$15.10. Daley jumped at the chance of serving 15 days in Jail in payment, instead of plunking down the cash; but when he was searched a \$5 bill was found in his pocket. Thereupon Judge Wedworth didn't do a thing but issue a writ of Habeas Corpus for that "dave." As Dave will get only 10 days' board at the public expense.

KENTUCKY REPUBLICAN PLATFORM.

Adopted at Louisville, Aug. 10th, 1897.

Resolved, by the Republican party in Convention assembled:

First—That we reaffirm the principles of the Republican party as set forth in the platform adopted by it at St. Louis in 1892.

Second—That we endorse the Republican National and State Administrations, and especially commend the action of our present state officials in their efforts to suppress mob violence and to preserve the financial credit of the state.

Third—We commend the action of the representatives of the Republican party in the passage of a tariff bill which will raise revenue sufficient to support the Government, prevent the issue of interest-bearing bonds, protect American labor and maintain the national credit.

Fourth—We are opposed to a system of Civil Service that builds up an official class with practically a life tenure in almost all branches of the public service, and we demand that the Civil Service Law be modified so as to limit the term of appointment to four years, with the privilege of reappointment or promotion, subject to such restrictions as will secure competent officials and give to every section of the country its proper proportion of them.

Fifth—We heartily sympathize with the struggling people of Cuba in their efforts to secure liberty and independence.

Sixth—That we recommend to the people the adoption of the Constitutional amendment submitted by the last Legislature, allowing all cities and towns the privilege of regulating under legislative supervision the method of levying the taxes they impose on themselves for city and town expenses.

Seventh—We favor the passage of a law that will protect the laborer of Kentucky from the competition of convict labor, and, if necessary to accomplish said result, an amendment to the Constitution permitting such legislation.

"The best way to get rid of a bad law is to enforce it."—General Grant.

Therefore THE LEDGER favors the rigid enforcement of the Civil Service Law.

The "ear famine" this year should be taken up by the ex-minister howlers.

The Guild Democrats are hawking to the lions and do not care whether their ships fall.

An increase of 34 per cent. in the number of employed persons in one year is very encouraging. The official reports of the trades unions of New York show that this is the year's increase in that city, and there is reason to believe that the country generally will make an equally good showing.

Those brokerage houses which failed in New York the other day were on the wrong side of the market. They were attempting to "back" McKinley property. Such failures indicate good times.

The friends of silver still insist that it is the "shortage abroad" that causes the advance of wheat, and that only. But how about the advance in cotton, corn, oats, meat, and practically every form of agricultural production? They have all been advancing while silver has gone down.

The weekless SIMPSON told the farmers of his district that if MCKINLEY were elected money would increase in value and farm products would decrease; that a condition resembling silver would result among the people of Kansas, with wheat at 25 and corn at 10 cents per bushel. And now the Kansas farmers are doing some scornful laughing.

REPORTS from the Ohio campaign show that the Republicans are warming up to the work with promptness and vigor. Senator FORAKER, who has been in the East, reports that the Republican party will stand solidly in line and put an enormous vote, while the Democrats are so divided among themselves as to make it impossible for them to muster even a respectable minority.

Sunday was the thirty-fourth anniversary of the battle of Chickamauga. The Confederate force actually engaged was 50,000; Union forces about 53,000; total Union loss, 15,551; total Confederate loss, 17,500.

Down at Henderson Oconell, a thirty-year-old boy, swam the Ohio river Sunday evening in twenty-seven minutes. Phaw! That's nothing. We've got a twelve-year-old boy up here that can wade in twenty-six.

May Entail a Great Amount of Trouble for the People of That Village.

Two Prominent Citizens Will Be Arrested—The Old Postmaster Retains His Post Office for the White People. He Will Be Prosecuted by the Government.

ATLANTA, Ga., Sept. 30.—The recent shooting of the Negro postmaster at Hognansville, threatens to entail no end of trouble for the people of that town. A post office inspector has finished a three-days investigation of the shooting and it was stated Sunday night that as a result of his work two of the most prominent business men in the town will be arrested this week on a charge of attempting to bribe the postmaster. The people of the town are called upon to face a most uncomfortable state of affairs.

They have been called upon to paralyze the Negro postmaster directly, the old postmaster, Harlaw, maintaining his old post office and dealing for and obtaining in bulk the mail matter for all his white patrons. Their letters were mailed on the postmaster's stamp and the letters can no longer be mailed on the trains. When this action was announced two days ago, the citizens conceived the plan of having their mail sent to the next nearest post office and then carrying it to the train. They are now told that this would be in violation of the law which permits only the government to retain a post route. Feeling this, his among the whites and blacks and further trouble is feared.

First among them are the clay working industries, and every active pottery and glass factory in the city. They are now employing to nearly 3,000 men. They have been shut down since the strike, which is usually maintained by these concerns has been so depleted that the shops will be enabled to run on full time until next spring.

WHEAT AND SILVER PART COMPANY.

[Adapted from "Facts About Money," by Prof. J. Laurence Laughlin.]

A Look Ahead.

Our national currency system is still in a highly unsatisfactory condition, and all friends of monetary reform should unite in bringing their influence to bear upon congress next winter to secure some positive constructive legislation to cure the evils which they all recognize as existing. Whatever measure is brought forward to simplify the paper circulation, to fortify the gold standard, upon which all our paper and silver issues rest, and to improve our national banking system by authorizing branch banks and giving the feature of elasticity to bank circulation, will be sure to be antagonized by all the money forces of cheap money—silver men as well as paper falsifiers.

On this question I believe parties will make their next national struggle. On one side the platform will be government paper money and plenty of it to stimulate business and start a new era of speculation. On the other side it will be that all paper currency should be issued by sound banks under government supervision, and its amount should depend on business needs, which vary from month to month, and which check on overissues by the bankers themselves to avoid insolvency.

The fight between sound and unsound money theories will be a hard one, and the wrong side may win at first, with most resulting calamity to our business thereafter. But it will have the advantage that it can be avoided. We must retire the greenbacks, and we must have a better system of bank issues before we can get our currency affairs upon a safe basis.

It seems to me that the first duty of the friends of sound money in preparing to make the contest that seems inevitable is to continue the process of educating the public mind, which was begun last year.—E. V. Smalley, in Chicago Times-Herald.

These Wheat Conspirators.

In 1896, when wheat scored such big advances, just before the national election, many farmers were suspicious that the advances were a part of a great Wall Street goldbug scheme to beat Brazil and silver. They were right. The denial election is three years off these same farmers will sorely credit the present very high price of wheat to the same gang of conspirators. They know that wheat is selling for a dollar because it is actually worth a dollar in the markets of the world—not simply a cent dollar and a half, as the wheat had been elected, but a 100-cent dollar worth par in any civilized country.

The farmer who still holds his wheat, as most do, is not sorry that it is worth a gold instead of a silver dollar. Nor is he losing much interest in the very low price of silver. He fails to see the close intimate connection between the price of silver and wheat which he once imagined he saw, and the whole free silver delusion has lost its charms. He may still delude all of his neighbors right away what he thinks, but he will keep thinking—Byron W. Holt.

Warmed-over Silver Arguments.

With the rising tide of prosperity contradicting all of Mr. Bryan's theories, and with the great flood of gold that is pouring into the markets of the world from Alaska, from Colorado, from Utah and from South Africa, the silver flood appears to be doomed to an early death. It will hardly be alive another year. In Ohio, Kentucky and Iowa the democratic and populist orators already find it hard to get audiences to listen to a repetition of their warmed-over silver arguments of last year.

To Put Up Price of Silver.

The silver magnates who have closed their mines on account of the decline in price are at last going about it the right way to raise value. There will always be a demand for silver, and as it goes down the market will go up. Just as soon as the silver mine owners resort to business methods instead of politics they will accomplish something. The wages of the silver miners have not come to their senses yet—Philadelphia North American.

The Farmer's Klondike.

With wheat at one dollar, with prospects that it will go higher, what use has the Maryland farmer for any Klondike excursion tickets?—Baltimore American.

The missing link—the connection between the price of silver and the price of wheat.

The Farmers' New Position on Silver.

Wages Before and Since 1873.

Thirty years before the "crisis of '73," according to the United States census of 1890, the average wage per annum paid to each person was \$288. Seventeen years after that catastrophe the average had increased to \$484. That is, the wage-earner of 1890 got 68 per cent. more than did the wage-earner of 1873. Not only that, but each dollar of 1890 would buy more of the necessities and comforts of life than would a dollar of 1873. Does the wage-earner think he gets too many dollars or that his dollars buy too much? How many crimes like that of 1873 could he stand?

Plenty of Gold.

A good deal of complaint is made as to the small amount of gold in the world. It is the very fact that gold is found only in small amounts that makes it so desirable for currency. If it was as abundant as iron it would be as unsuitable as iron for money purposes. As to the comparative quantity, there has not been five years since 1850 when there has not been a much larger amount of gold than the world in possession of. The necessity for its use that there was in the preceding five years, and there is more today in proportion to the necessity for its use for business than there ever was before.—Hon. John D. Wolf Warner.

Unsafe Monetary Condition.

The several forms of our paper money offer, in my judgment, a constant embarrassment to the government and imperil a safe financial in the treasury.—From President McKinley's Message to Congress.
